

Pre-Employment Transition Services: **Counseling on Post-Secondary** Ohio Sight Centers

Learn skills needed for greater independence

- Classroom-based
- Duration: Up to 8 hours
- Population: Students who are Blind or Visually Impaired and need support navigating post-secondary education.

Service Outcomes:

- Students will complete a self-evaluation to identify their potential needs for college readiness
- Students will understand post-secondary opportunities, including college/university and other adult learning options
- Students will have information about college admissions processes, financial aid, and disability-related services
- Students will be aware of the FAFSA process, scholarships, and financial literacy
- Students will be able to articulate the differences between secondary and post-secondary support
- Students will understand how accommodations work on campus (i.e. interpreting services, service animals, etc.)
- Students will be knowledgeable regarding resources available

Counseling on Post-Secondary is available statewide to students who are Blind or Visually Impaired. This map reflects service areas where providers will deliver services. OOD will update this information as more services become available and/or service areas expand.
